To whom it may concern,

Letter of attestation for **Dr. X: Confirmation of Level 2 CMR Training**

This letter is to serve as 'proof of competence' confirming that **Dr. X** has achieved level 2 training in Cardiovascular Magnetic Resonance (CMR) as detailed in JCMR 2018;20:57 and approved by the SCMR Board of Trustees 6/2/2018.

This status is subject to the 'maintenance of competence' requirement as laid out in the above documents, which currently stands at reporting/interpretation of 100 CMR cases every 24 months plus competing 20 hours of coursework in CMR every 24 months. If applicable, **Dr. X** will need to supply this information to you separately.

I am supplying this letter of attestation as an appropriately trained **Level 2/3** qualified mentor directly involved in the CMR training of **Dr. X from 20XX-20XX**.

**Dr. X** has demonstrated the following requirements:

1. Board certified *or eligible* in **cardiovascular medicine, radiology, or nuclear medicine (whichever is applicable)**.
2. Basic knowledge, clinical training, and experience in **echocardiography, cardiovascular computed tomography, or cardiac nuclear medicine (whichever is/are applicable)**.
3. Holds a valid, unrestricted medical license. **Dr. X will provide a copy of this license separately.**
4. Undergone at least 3 months (cumulative) of CMR training (at least 2 months of which was full time in a CMR laboratory, and up to 1 month was independent study) under the aegis of a Level 2/3 qualified CMR mentor within two years.
5. Documented involvement in at least 150 CMR studies representing the range of abnormalities observed in practice, including substantial proportions (at least 25 each) of cardiac and vascular studies, and for at least 50 of these studies the candidate was present or acted as the primary operator, and performed the analysis and initial interpretation.
6. Successful completion of at least 50 hours of CMR coursework.

Yours sincerely,
