

27th June 2025		
13:00	13:15	Welcome
13:15	14:30	CMR: The Right (Heart) Way
13:15	13:30	How do I quantify right ventricular function in 2025?
13:30	13:45	Right atrial size and function: Does it matter and how do I measure it?
13:45	14:00	State of the art assessment of Ebstein's anomaly
14:00	14:15	Not at all 'simple': Comprehensive evaluation of atrial septal defects
14:15	14:30	Discussion
14:30	15:00	Break
15:00	16:00	Conotruncal Anomalies
15:00	15:15	Is it time for a new valve? CMR in surveillance of Tetralogy of Fallot
15:15	15:30	CMR for decision-making in double outlet right ventricle
15:30	15:45	Comprehensive assessment after atrial switch operation
15:45	16:00	Discussion
16:00	16:30	Break
16:30	17:45	State of the Art Tissue Characterization with CMR
16:30	16:45	Inflammation imaging with CMR
16:45	17:00	Parametric Mapping: From basics to cutting edge
17:00	17:15	T1 mapping in children
17:15	17:30	Cardiac tumors: Virtual biopsy with CMR
17:30	17:45	Discussion
17:45	18:45	Welcome Reception

28th June 2025		
8:00	9:15	Inflammatory Cardiovascular Disease, joint session with SPR
8:00	8:15	Should everyone with suspected myocarditis undergo CMR?
8:15	8:30	Multimodality imaging for pericardial diseases
8:30	8:45	Detection of heart transplant rejection by CMR
8:45	9:00	What's in my imaging toolbox for patients with arteritis?
9:00	9:15	Discussion
9:15	9:45	Break
9:45	10:00	Best Abstracts
10:00	11:00	Artificial Intelligence
10:00	10:30	Pro/Con: AI in congenital CMR examinations
10:30	11:00	Fireside chat on AI
11:00	11:30	Break
11:30	12:30	Function and Flow beyond the Basics
11:30	11:45	Beyond ejection fraction: How do I assess contractility?
11:45	12:00	How do I get the most out of 4D flow?
12:00	12:15	Is it time for real time flow and function?
12:15	12:30	Discussion
12:30	13:45	Lunch
13:45	15:00	CMR in Sports Participation Screening
13:45	14:00	Just Athlete's Heart or am I missing 'something'?
14:00	14:15	CMR in HCM risk prediction
14:15	14:30	CMR in diagnosis and prognosis of Arrhythmogenic Ventricular Cardiomyopathy
14:30	14:45	Imaging for Anomalous Coronary Artery Anomalies
14:15	15:00	Discussion
15:00	15:30	Break
15:30	16:30	The Failing Right Ventricle
15:30	15:50	The systemic right ventricle in a biventricular circulation
15:50	16:10	The systemic right ventricle in a single ventricle circulation
16:10	16:25	Discussion
16:25	17:30	Jeopardy and Wrap up
16:25	17:20	Jeopardy
17:20	17:30	Wrap up
