Amedco LLC designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credits™*. PAs should claim only the credit commensurate with the extent of their participation in the activity.

Objectives - After Attending This Program You Should Be Able To

1. Recognize clinical and imaging “red flags” that should prompt consideration of congenital heart disease in adults undergoing CMR.
2. Differentiate standard adult CMR protocols from congenital-focused protocols, and identify when routine approaches may be insufficient.
3. Apply targeted CMR protocol modifications—including flow quantification and angiographic techniques—to improve detection and diagnostic accuracy of previously unrecognized CHD.

Disclosure of Conflict of Interest

The following table of disclosure information is provided to learners and contains the relevant financial relationships that each individual in a position to control the content disclosed to Amedco. All of these relationships were treated as a conflict of interest, and have been resolved. (C7 SCS 6.1-6.2, 6.5)
